Commander Day's N crative of Events on the Is ands.
Cleveland (0.), Jan. 31.—By the Associated Press.] Commander B. F. Day of the United States Navy, who has recently returned from a cruise in the South Pacific, told a reporter this afternoon an interesting story of his experiences in Samoa. He went there in May, 1886, in the United States TWANT TO SELL THE FURNITURE

Commander Day says that Branders, Commander Day says that Branders, now Tamasees's premier, was formerly a clerk for the German Trading Company, and is completely under their control. Instead of an automony, the Samoan Government is a protectorate in full intent and purposes. In fact, the commander of the German vessel at that time there frankly admitted to Commander Day that they were protecting Tamasese. The German supply him with guns and ammunition, and if our Government intends to assert its rights there and prevent the German getting full control, the wisest move would be to send Matasfa a good supply of arms and ammunition. With these he could hold his own against any force the Germans-could send against him for a long time. Commonder Day has an idea that the affair is going to be a very serious complication.

TALK AT WASHINGTON.

Bayard Still Serene, but Other Think the Situation Serious. WASHINGTON, Jab. 31.—[By the Associated Press.] Secretary Bayard was this evening shown the dispatch from Auckand, stating that Germany has given no tice that vessels arriving at Samoa will be searched for contraband goods. that war had been declared against Matafa and martial law proclaimed by the German Consul at Apla. He did not know whether the martial law referred to included Samoa or only Apia.

Reference was made to the criticisms of the Department of State, and the Secretary sold: "I would like the gentlemen who have been criticising everything done by the State Department to show one instance in which I have broken the law or permitted it to be violated. I do not know such an instance. There has been a great de lof misrepresentation, and in time my countrymen will see that the State Department has done everything that could be done. I have yet to learn that any American has been injured or any of their rights as defined by law and treaty taken a way. Our policy has been fixed and steady in the direction of the preservation of American rights. The German Government has constantly given assurances that Germany would not violate American rights. "The department," said the Secretary, "cannot stop fighting in Samoa. We cannot prevent rival commercial companies quarreling and fighting. It is not for us to try to give every country a stable government."

POLICE AND STRIKERS.

More Rioting in New York-Pistol Shots Exchanged. New York, Jan. 31.—[By the Associated Press.] Nearly all the street-car lines in the city this morning resumed running cars. Some of them ran a considerable number. ome of the strikers were fighting drunk.

Some of the strikers were fighting drunk. Squads of militia are guarding the State Arsenal and Second Battery, where Gatling guns are stationed, to guard against a rumored attack contempiated by the strikers to secure arms and ammunition.

Late in the afternoon the belt road near Tenth avenue was blocked with a load of sand and stones, and great crowds of strikers congregated. Stones were thrown, and the situation was becoming very serious when Inspector Steers ordered a charge with clubs to disperse the crowd. This was with clubs to disperse the crowd. This was made, and the crowd soon disappeared, many of them with sore heads and bodies. During this affray the strikers opened fire with revolvers, which was returned by the police, and one of the strikers was seriously wounded.

police, and one of the strikers was seriously wounded.

Later the mob dumped a truck on the track in Seventh avenue. Officer Lynch seized the leader and started to the station, when the crowd made a rush to rescue him, and knocked the officer down. Another officer came to the rescue, and a serious fight ensued, during which a number of shots were fired. One of the bullets struck the prisoner in the leg, inflicting a serious wound. Reinforcements came up and dispersed the crowd. Two officers were badly injured.

Several other minor affrays occurred at different points. Many satisfers were clubbed, and several arrasted. The frequences with Superintendent Murray. Superintendent White of the Dry Dock line informed the police that he had information that the strikers would attempt to fire the stables tonight, and in consequence a large force of police is on duty there.

Allison Declines.

INDIANAPOLIS, Jan. 31.—Two telegrams have been received in this city since sundown by prominent politicians. One came from Washington, the other from New York, and both indicate that Senator Allison has finally and conclusively decided to de-cime the proffered Treasury portfolio. Whether any information of this character has yet reached Gen. Harrison cannot be ascertained.

Runaway and Smashup. Last night about 8 o'clock a runaway and smashup occurred on Alameda street, caused by the Chinese New Year celebration. A horse attached to a light buggy was coming down Alameda street, and, when just oppo-site Marchessault alley, some of the heath-ens set off a big string of firecrackers, which ens set off a big string of firecrackers, which frightened the horse, and he started on a dead run, and further down the street collided with a spring wagon, wrecking both vehicles and throwing the occupants into the air. The horse then kicked loose from the buggy, and at a late hour had not been found. The horse and buggy came from the Pioneer stable at Pasadena, and the owner was at the police station looking for his rig, which had not turned up.

Wanted the Police Cart. Last night about 7 o'clock a telephone message was received from the Southern Pacine depot, asking that the patrol wagon Pacine depot, asking that the patrol wagon be sent down for a couple of robbers. When they were brought to the station it was found that they were a couple of friends from the rural districts in town on a spree, and the one who was most capable of taking care of himself was given the money in the party to take care of. After being questioned they were released, and made a big kick to have the patrol wagon carry them back to the depot, saying that they did not know the way, but were t ken to Spring street, turned north, and told to follow their noses and they would come out all right, which they did.

The notorious Frank Toal was on trial had reached a serious state, and he would not be surprised to hear that a conflict had taken place between Germans and Americans. The natives have beaten the Germans repeatedly, and, according to the Auckland dispatches, Germany now proposes to whip them by preventing arms being sent in. The newspaper read by Americans has been suppressed, and the Germans have taken open control of the police of Apia. American residents contributed to a tund for the support of the municipal police, and it is bad enough to have them under the direction of Tamasses, but under German control it is

NO RECEIVER.

DGE VAN DYKE THINKS THE BONE DOKSN'T NEED IT.

Ex-Editor Eastman Has S Other Remedy, Which Lies in the Direction of an Official Examination of the Books.

resterday morning at 10 o'clock was the ur set for Judge Van Dyke to render his cision in the motion of Col. F. A. Eastan vs. H. H. Boyce, asking for a receiver or the Tribune Company. The motion was ade on a clause in Mr. Eastman's comlaint for a judgment against Boyce, who in possession of \$5000 worth of stock in Tribune Publishing Company, which dr. Eastman and another stockholder, J. d. Austia, claim that Smoothy obtained without paying for it. Pending the suit to recover the \$5000, Eastman and Austin asked for a receiver on the grounds that their property is being injured through the

nismanagement of Boyce.

Judge Van Dyke refused to grant this Clause of the complaint, but he decides that
Eastman and Austin are entitled to have
the books examined, and he will appoint an
examiner when application is made, which
will be done today, as Eastman and Austin's attorneys were drawing up the papers
vesterday.

yesterday.

All of the allegations in the complaint are admitted, as appears by the following, which is a copy of the decision prepared by the court reporter and corrected by Judge

Van Dyke:

In the Superior Court of the county of
Los Angeles, State of California, Department No. 4. W. Van Dyke, Judge, January
31, 1889. Eastman vs. Boyce. Decision of
the Court on order to show cause.

The Court: In the case of Eastman
against Boyce and others, owing to press of
business, I have not been able to write out
any opinion, but I have arrived at a conclusion, and as I intimated I would dispose of it this morning, I will proceed to
do so.

pose of it this morning, I will proceed to do so.

The question is not a new one in this State. Similar cases have been brought and disposed of. In this case the action is by a stockholder of an alleged corporation, the Tribune Publishing Company, setting forth the corporate existence of the defendant corporation, the amount of stock mentioned in the articles or certificate of incorporation, the stock that was actually issued, being 1860 of the 2000 shares, of which the plaintiff held 320, and the individual defendants are directors, and have the sole management and control of the corporate affairs of the company, and in a general way that they are mismanaging the affairs of the corporation and pursuing such a course as to injure its business and credit. Further, that they have favored one of the individual directors, Boyce, by a credit extended to him to the amount of some \$5000, and that they keep the books without allowing the plaintiffs to have access to them; that they are keep in an unsatisfactory, unbusinessike way, and they ask the Court

tended to him to the amount of some \$5000, and that they keep the books without allowing the plaintiffs to have access to them; that they are kept in an unsatisfactory, unbusinesslike way, and they ask the Court to have an auditor appointed to examine the books, and, pendente litte, to appoint a receiver to take charge of the business and conduct the affairs of the corporation until it can be closegor, wound up.

The defendants come in by way of demurrer and answer to the cause by claiming that, admitting the facts as alleged in the bill, the court should not appoint a receiver under the law and decisions of this State. In the French Bank case, quite a noted case in this State, this whole matter was pretty thoroughly discussed by some of the ablest lawyers in the State, and the court refers in that case to the former adjudications in this State prior to the adoption of the code, and the provisions in the code are also referred to. The court in that case say: "Irrespective of the effect of the fifth subdivision of section 564 of the Code of Civil Procedure which will be presently considered, there is no jurisdiction vested in courts of equity to appoint a receiver of the property of a corporation in a suit prosecuted by a private party. This is only to say that there is no jurisdiction vested in these courts in such a case to dissolve a corporation, for the power of a receiver, when put in moulon, of necessity supersedes the corporate management and substitutes its own, and asyumes, in the language of the order under review, and that is a similar order to the one asked in this case, "to do all and everything necessarily displaces the corporate management and substitutes its own, and asyumes, in the language of the order under review, and that is a similar order to the one asked in this case, "to do all and everything necessarily displaces the corporate power. It necessarily displaces the corporate on the review, and that is a similar order to the one asked in this case, "to do all and everything necessarily of t

language: This decree, if permitted to stand, must necessarily result in the dissolution of the corporation; and in that event the Court will have accomplished, in an indirect mode, that which in this proceeding it had no authority to do directly. It is well settled that a court of equity, as such has no jurisdiction over corporate bodies for the purpose of restraining their operations or winding up their concerns. We do not find that any such power has ever been exercised in the absence of a statute conferring the jurisdiction."

Then the Court goes on to speak of the present statute, that is, the section of the code referred to: "We proceed, therefore, to inquire whether the jurisdiction of courts of equity, in the respect referred to, has been enlarged by any statute of this State.

The only statute brought to our attention which is supposed to have the effect of the contract.

of equity, in the respect referred to, has been enlarged by any statute of this State. The only statute brought to our attention which is supposed to have that effect is section 564 of the Code of Civil Procedure," (and then they cite that code in fuil, the whole six subdivisions, and proceed.) "That the case brought in the Fitth District Court of the Fitteenth Judicial District is not included in the sixth subdivision of this statute has been determined already, and the appointment here not having been made 'after judgment,' of course the third and fourth subdivisions can have no application. The first and second subdivisions provide for the appointment of a receiver in an action brought by a vendor to vacate a fraudulent purchase; in aid of a creditor's bill; also in proceedings involving questions between partners; also in suits of foreclosure brought by mortgazees when the security is likely to be lost or seriously impaired. These subdivisions do not assume to create a substantive right of action where none existed before. Their aim is to provide a more efficacious remedy in the conduct of actions, the right to bring which already exists, and are elsewhere provided for. The action by a yendor to vacate a fraudulent purchase, or by a mortgage to foreclose a mortgage, is not, created by the statute we are now considering. They exist independently of its provisions, and would continue to exist if the statutes were repealed.

"The particular subdivision, bowever, which is gunored."

repealed.

The particular subdivision, bowever, which is supposed to confer the power in question and to authorize the District Court which is supposed to confer the power in question and to authorize the District Court to appoint a receiver of the property of this corporation, is the fifth, being the only portion of the statute in which corporations are named" (and they cite the fifth). "There is, of course, no such thing as an action brought distinctively for the mere appointment of a receiver—such an appointment when made is ancillary to or in aid of the action brought. Its purpose is to preserve the property pending the litigation, so that the relief awarded by the judgment, if any, may be effective. The authority conferred upon the Court to make the appointment necessarily presupposes that an action is pending before it, instituted by some one authorized by law to commence it. But there is no statute of this State, none to which we have been pointed, which undertakes to confer upon a private person, either as stockholder or creditor, the right to maintain an action to dissolve a corporation upon the ground that it is insolvent or to obtain relief by seizing its property out of the hands of its constituted management and placing it in the hands of a receiver.

by Chancellor Kent: "That the persons who, from time to 'time, exercise the corporate powers may, in their character of trustees, be accountable to this court (that is, the Court of Chancery) for a fraudulent breach of trust, and to this plain and ordinary head of equity the jurisdiction of this court over corporations ought to be confined."

Then our courts say: "But even in such a proceeding as that the trustees must, of course, be made parties defendant (that is, in a proceeding to supervise or regulate the action of the constituted authorities of the corporation)."

Now, in this case it is true it differs from the French Bank case in that four directors are nade parties defendant; but four do not constitute a board. The court is bound to take notice of the law that at least five are necessary to constitute the trustees of the constitute a board. The court is bound to take notice of the law that at least five are necessary to constitute the trustees of the corporation. Further, this application is not for the purpose of controlling the action of the trustees, but it is to take out of their hands and put in the hands of a receiver, appointed by this court, the corporate powers of the company. The law itself places the corporate functions of the company in the hands of certain persons called trustees or directors. Until the corporation is dissolved, and the law provides for the dissolution, both voluntary and involuntary, the corporate functions must not be taken from these persons appointed and designated by law, and put into the hands of some one else; but nevertheless these trustees, like other trustees or executors or administrators, in a proper proceeding can be made to perform their duty. They can be compelled, restrained or controlled in a proper proceeding.

made to perform their duty. They can be compelled, restrained or controlled in a proper proceeding.

But in a case like this, for the appointment of a receiver of a corporation, I cannot disregard the well-adjudicated cases and the recognized law. It is so well understood in this State, since the French Bank case, that if it had not been for the earnestness of counsel for the plaintiff I should not have been disposed to consider it for a moment; but they seemed to think that it did not fail within that case. They rely upon a case arising in the State of Ohio. That case, at most, merely holds that a receiver having been appointed (it don't appear how or why), that the matter cannot be collaterally attacked. The Court says in that case: "It must be borne in mindi that here was an acting receiver. There was at least the form of a legal appointment. This is not a proceeding in error or to review the order of appointment. It is a collateral inquiry." It is not enough that the Court might have erred in its action, admitting there that the Court might have erred but they say that in that action it could not be collaterally attacked.

Now, suppose this Court should appoint a receiver, it would be subject to review, and in that case (as it would seem to be admitted to be an error) it would be an idle procedure; but, as I remarked, I do not feel at liberty to disregard the upbroken decisions of the Supreme Court of this State in this matter.

If the trustees or directors of the corpora-

of the Supreme Court of this State in this matter.

If the trustees or directors of the corporation refuse to exhibit their books to a creditor or stockholder, there is a mode of redress, or if their accounts have been improperly kept, that can be ascertained. In this case there is no judgment yet; in fact, there is no allegation of a claim against the corporation. They sue in aid of the corporation, as it were, to obtain a judgment as against one of the directors and in favor of the corporation. Of course being stockholders, they have an interest in seeing that all that is due the corporation should be paid to it. The application for a receiver will be

denied. It is so ordered.

If the complainants wish to enforce their right to have an inspection of the books, or any exhibits taken from the books, or for an account prepared for the benefit of all, on the proper application, it will be heard. JUDGMENT DAY COMING.

They lodged a complaint against Wilson in Jus-tice Lockwood's court, and Deputy Constable Vignes was sent down Wednesday evening to eapture the desperado. Wilson, it seems, had warning of the officer's com-ing, and, with his shotgun well charged with buckshot, he found a hiding-place near his cabin, and waited for the officer to put in an appearance.

But Constable Vignes was equally wary, and, instead of marching up to the cabin, he took to the hedge, and waited for Wilson to put in appearance. Thus each one was watching for the other, and nothing came of the long vigil.

Yesterday morning early Vignes took the road again, and finding that Wilson had started for Wilmington by wagon gave hot chase. He overtook the fugitive at Nigger Slough, about 16 mies from this city. Wilson was riding along unconcernedly with his handy shotgun across his knee. Vignes managed to get very close without exciting alarm and then he drew a bead on Wilson and obliged him to surrender. The prisoner and his fowling-plece were brought to town, and Wilson put up \$100 in coin for his appearance February 6th to answer the charge against him.

The examination of Robert Lewin on the charge of arson was concluded yesterday morning, after occupying the attention of Justice Austin for nearly two days and a balf.

half.

The circumstances of the attempted burning of the New United States Hotel building were brought out so strongly and the testimony pointed so directly to Lewin, the owner of the saloon, that there was no reasonable outcome but to hold him for trial. Indeed, on Wednesday-the case was so well made out that Justice Austin ordered Lewin's bail increased to \$6000.

On concluding the examination yesterday, and holding Lewin for trial, the Justice fixed his bail at \$7500. Lewin went to jail.

About Assessments.

There have been numerous complaints of late about the county assessments, quite a number of persons claiming that they were excessive and far above the city assessments. One citizen, a small property owner, stated yesterday that he had been assessed for county taxes at \$500, while the city assessment was but \$500. He said that he put in his place at the full price that he paid for it, \$500, for the city, and swore to that, and was very much surprised when he found that the county had raised him \$200. He said that he could not understand how this had happened, and when last seen was headed for the courthouse to look up the Supervisors.

ment and placing it in the hands of a receiver.

Then the Court notices cases where a receiver may be appointed, for instance: "Of course it is not to be doubted that the trustees of a corporation, the persons who constitute its direction, and from time to time exercise the corporate authority in the management of its affairs are subject to the department encampment at Stock-time exercise the course of equity, or, as observed

The young man left the town, and afterward sent for his trunk, since which time nothing has been heard from him. The "fly" sports also made themselves scarce about the place, and have not since shown up in any of their old haunts. There are still, however, any number of the festive individuals in the city, and, while they are well known, they are never molested. Of course it may be only a coincidence, but the

individuals in the city, and, while they are well known, they are never moiested. Of course it may be only a coincidence, but the following letter from Sacramento to the Chronicle of the 29th, from its special correspondent at the capital, looks very significant, and shows that the party are expert poker players, at least, if nothing more. The letter will be interesting reading to a number of people in this city, and fully explains itself. It is as follows:

"Most of the Legislators spent the Sabbath in San Francisco, and some of those who remained in Sacramento istend on a quiet time wish that they had followed the example of the majority. The list of popular amusements in Sacramento is somewhat limited, and if the standard game of poker were eliminated therefrom there would be little of a congenial character left to delight the souls of the Solons. Some of the gentlemen who devoted the Sabbath to the fascinating game of cards repent their sinful conduct, and the air is full of strange reports with regard to the sensational character of the game that was played. Rumor links with the stories of phenomenal gambling the name of a famous theatrical manager who is much advertised as the originator of mastodon minstrel shows and other mammoth combinations of the variety order. A few days ago this long and widely celebrated manager struck the capital in company with a tall-dark, but urbane stranger, whom he istroduced as a wealthy and successful mining man from Leadville. As the voluntary presence of all strangers in Sacramento seams to call for an explanation, the theatrical man stated to his numerous acqualitances that he had run over from Leadville to the Pacific Coast for a "little time." He and his companion, whom he istroduced as a wealthy and successful time." He and his companion, whom he istended to he with the successful mining man from Leadville. As the voluntary presence of rich ore from their mine in Leadville, and in order to release their minds from the cares of too rapidly accumulating wealth, had sou

A QUEER AUCTION,

Whose Patrons Complain of Being Fleeced. There was another row at the auction house at the corner of First and Main streets yesterday afternoon, a young man claiming he had been robbed of 50 cents by claiming he had been robbed or 50 cents by the auctioneer. He said that he went into the place and purchased a shirt for 50 cents, laying down \$1 on the counter in payment. He was dissatisfied with his bargain and wanted his money back, when the auc-tioneer handed him back half a dollar, saywanted his money back, when the auctioneer handed him back half a dollar, saying that was all the money he had put down. The young man kicked, and went out after an officer, but when the officer came back with him he declined to swear out a complaint, saying that he preferred to lose the money to bothering about it, aithough a bystander said that he would swear that a dollar had been paid. There have been several other complaints about the same place within a short time. One man said that he purchased some article in the house, giving a \$10 gold piece in payment, when the auctioneer gave him change for \$5, and in, in which story he was backed up by three clerks. Another old gentleman said that he went into the place for a few minutes and laid down bis came, which was stolen almost immediately. There have also been several complaints of pockets being picked at the corner, but whether this occurred on the sidewalk or inside the the house could not be ascertained. The place is an auction house, which claims to be selling out a large stock of goods at assignee's sale, and is run by Kline Bros.

Excursion Business—An Excursion Over the Beit.

The Santa Fé people are taking charge of the excursion business over their own lines, but no definite arrangements have been made as yet. It was announced by a morning print yesterday that the Santa Fé people had taken the excursion business away from Phillips & Co. and Warner Bros. This kind of talk is all nonsense, for the reason that the Santa Fé Company has never controlled these excursion agents further than to furnish transportation for large parties at reduced rates, as any railroad company will do for any one who will gather together a carload or more of passengers. As long as the excursion agents are energetic enough to drum up travel the railroad companies will haul their live freight. made as yet. It was announced by a morn

gers. As long as the excursion agents are energetic enough to drum up travel the railroad companies will haul their live freight.

The San Francisco papers say that the Golden Gate special, under its new time table, will make the run between San Francisco and New York in just 113 hours, or nine hours quicker than at present. It will connect at Council Bluffs with a better class of trains, and arrive in Chicago at 8:30, a more seasonable hour than at present. Leaving San Francisco at 8 o'clock on Saturday evening, it will pass Ogden as 4 o'clock on Monday morning, Council Bluffs on Tuesday at 4 o'clock in the after-Boon, Chicago on Wednesday at 8:30 in the morning, arriving in New York at 4 o'clock Thursday afternoon. The running time on the regular train is 142 hours between the seaboards.

W. B. Elwood, destrict superintendent of the Pullman Car Company, is in Los Angeles. He arrived here from Prescott day before yesterday.

Next Sanday the Santa Fé people will run an excursion train from this city to Orange, Riverside, San Bernardino and back. The excursion party will be given a chânce to see the whole of the Santa Ana Valley, as well as the valleys of Riverside, San Bernardino and chânce to see the whole of the Santa Ana Valley, as well as the valleys of Riverside, San Bernardino, San José and San Gabriel. The train will leave this city at 8:30 a.m., and will arrive on the homewaft trip at 6 o'clock p.m., giving the excursionists two or three hours in each of the above mentioned places.

GLENDALE SEMINARY.

Formal Opening of the New School The school for girls, to be known pereafter as St. Hilda's, at Glendale, had a most auspicious opening yesterday. A hundred guests or more, representing all the parishes in Los Angeles, with many from the neighboring towns, assembled to wish the school God speed. On their arrival, time was given to inspect the building, with its elegant furniture and fine appoint nents, and then all were summoned ments, and then all were summoned to the chapel, where the acting rector read morning prayer, then he read an address appropriate to the event. He said that it would be a Christian school where the facts of divine revelation would be considered as truths; the children would be instructed not to become Christian but to behave as Christian children; because they were such already. The rule of obedience of the school is embodied in the Ten Commandments; the rule of prayer in the Lord's Prayer, and the rule of faith in the Aposties' Creed. He then spoke to the teachers about their duties; how important it was to begin right in order to make a reputation for the school.

The address was much enjoyed by those who heard it. After this the guests were invited to partake of a lunch.

Between twenty and thirty pupils were enrolled, with more to hear from next Monday. The fine location of this school, its elegant appointments, and the ability of the corps of teachers who have been engaged as its faculty should insure it a liberal patronage from the residents of Southern Coff.

Secretary Higgins was finally instructed to prepare a document opposing the move, which is to be sent to the Representatives from this county. Au invitation from the Sauta Ana Board of Trade, asking the Chamber of Commerce and Board ef Trade of Los Angeles to visit their city and join in a discussion of the matter, was received and read. The secretaries were instructed to inform the Santa Ana board that the Los Angeles bodies do not think it necessary for the reason that all that is possible has been done by the county to prevent a division.

A resolution was adopted asking the Representatives from Southern California to do all in their power to secure the passage of the appropriation bill for the London exhibit. The secretaries were instructed to write to the Representatives at Sacramento.

The meeting then adjourned.

SNELL AND ESDOR.

Their Preliminary Scrimmage Comes to Naught. The preliminary bout between Snell and

Esdor, the Tribune circulators, which has Esdor, the Tribune circulators, which has been hanging fire some time, came to trial before Justice Savage yesterday. It will be remembered that Snell and Esdor had a horse out at pasture, and after they got to pulling at cross-purposes. Snell sent out a man with an order for the animal and had it withdrawn from pasture.

Esdor had Snell arrested for obtaining goods under false pretenses. After listening to the testimony, Justice Savage dismissed the case, declaring the charge frivolous.

D.R. W.I.L.I.A.M.S.

With his new system of medicated inhalations, also the oxygen and corapound oxygen treatment, combined with proper constitutional remedies for the liver, stomach, bord etc.

Probably no system of practice ever adopted has been so universall successful as that Introduced by Dr. Williams for the cure of Catarrh, Throat Diseases, Bronohitis, Ashima and Consumption.

Catarrh is often recarded by the patient as a cold in the head, and he often expresses his astonishment at his remarkable tendency to contract a fresh cold. Indeed, he declares he is scarcely free from one cold before he takes another; and he is always exceedingly careful. It is use a matter of surprise to him had and cold always seems to settle in the head and cold always seems to settle in the head and cold always seems to settle in the head and cold always seems to settle in the head and cold always seems to settle in the head and the seems translate and the received and the section is left to make the cold always and the received head of the section is left to make the cold always and the received head of the section is left to make the cold always and the received head of the section is left to make the cold always and the received head of the section is left to make the cold always and the received head of the section is left to make the cold always and the received head of the section is the cold and the cold always are constituted by the section is the cold and the cold and the cold and the cold and the cold always are considered to the cold and the cold a

At times many of the symptoms of Catarrh may seem to abate, and the patient is led to hope that the disease is about to wear off; but another class of symptoms soon appear, and he learns to his horror that instead of recovery from the disease it is somewhat changed. POLITICAL.

PREPARING FOR THE CITY CAMPAIGN.

A Big Fight to Be Made for the Office of Superintendent of Streets -A Batch of Able Minds for Po-Judge-A Few Gentlemen Who Want to Be Councilmen.

The slate-makers are still hard at work fixing up lists of candidates for the approaching municipal election. Of course a very large share of their work will have to be undone by the convention, but like the industrious ant that rolled his pebble up for the four hundred and ninety-ninth time, they still keep at it undiscouraged.

Following is some of the political gossip

gleaned by Times reporters:

POLICE JUSTICE.

Under the new charter the office of Police
Judge will be a very important office. The
man who is chosen should not only know
the law, but he should be a man of backthe law, but he should be a man of backbone and courage. Among the Republican aspirants are Deputy County Clerk Adams, B. W. Diehl, F. W. Cherry, Hugh Crawford, W. W. Stewart, C. E. McCusker and Joseph de las Casas. The timber is not much to speak of, but it is the best that has come to the front so far.

SUPERINTENDENT OF STREETS.

A hard fight will be made for the office of Superintendent of Streets in the coming

Superintendent of Streets in the coming campaign. There are a number of candidates in the field on the Republican side of the house. Among them are Capt. J. Frankenfield, N. B. Walker, A. Walker, G. R. Ellis, Martin Wetzel, Capt. Blennerhassett, Col. Miller and Col. Morford. Martin Weitzel, who has managed the throttle on a Southern Pacific engine sixten years or more, and who is one of the best known and most popular men on the road, is thinking of breaking away from railroading, and his friends say they will support him for the office of Superintendent of Streets.

support him for the office of Superintendent of Streets.

Capt. Frankenfield is the strongest man in the lot if he will accept the office, which is an uncertainty at the present time, for he has not yet given his consent, although a number of his friends were out talking for him yesterday. Under the new charter, the office is one of the most important within the gift of the people of Los Angeles, and the min who gets it must be honest and up and up in every respect.

On the Democratic side of the fence Capt. Barrett, W. A. Marsh and Mathew Carr are out. Besides these gentlemen there are about a dozen fellows who would capture all the boodle in sight and disgrace the city.

ASSESSOR AND TAX COLLECTOR.

ASSESSOR AND TAX COLLECTOR.

The offices of Assessor and Tax Collector are not creating much talk, for the reason that the present incumbent, "Uncle" John Fisher and Len Thompson, give general satisfaction, and it is conceded along the line that they will not only be reucominated, but that they will not only be reucominated, but that they will be elected if they keep their hands clean and don't train with the wrong gang. The Democrats are keeping dark for these offices, and no announcements have been made as yet.

wrong gang. The Democrats are keeping dark for these offices, and no announcements have been made as yet.

FOR COUNCILMEN.

All kinds of people are popping up for Councilmen. The Democrats have made up their minds to capture the Council if possible, and they are working night and day to that end, but the Kepublicans are not asleep. The people have been forcibly reminded during the present Democratic administration that the city cannot be properly governed under the mossback rule, and the general opinion is that a clean sweep will be made.

C. N. Earl (incumbent), from East Los Angeles, is in the field, and is considered a good man. He is the only candidate in the field so far.

Boyle Heights, or the Ninth Ward, comes up with a big collection, viz.: I. J. Clark of the Towel Company, J. W. Browning, R. E. Wirsching, R. B. Yoang the architect, F. J. Teale, George R. Eilis and Joseph Craig, the stoneouther. They are all Republicans.

There are several names mentioned from the 'second Ward. They are: H. C. Register, Charles A. Stilson, George O. Ford (incumbent), J. M. Skinner and C. E. Day. The Democrats are keeping very quiet and will not make their fight known for some days.

In the Seventh Ward the Democrats have made up their minds to elect either B. Cohn or A. McNaily, and they are colonizing that ward for all that is out.

Several secret meetings were held yesterlay attennoon by prominent Republicans, but they kept their mouths shut after the meetings adjourned and it is impossible to give the results. The fight is not yet warmed up, but the chances are that it will be one of the hottest contests ever fought in this city.

THEY QUARRELED,

Their Stock.

Rather a singular attachment was served by the Sheriff on a San Pedro firm yesterday. It seems that two brothers named Hyman entered into partnership to do a general business in San Pedro, the other day, and articles of incorporation were filed with the County Clerk. The firm is well fixed, and it was believed that they would do a thriving husiness. Before they had done business many days after the papers done fusiness many days after the papers were filed, however, a desperate quarrel occurred between the two brothers, and one occurred between the two brothers, and one of them left for San Francisco. Why he went or what he has done is not known, but it is very certain that something has gone wrong, for the Sheriff was instructed by telegraph to place a \$10,000 attachment on the concern. Nicheisberg & Co. of San Francisco are the attacking creditors, but why they attached is not known, for only one set of papers were received, and the Sheriff did not have time to make copies, so they were sent to San Pedro and were served last night. The true inwardness of the thing will remain a mystery until one or the other of the brothers can be found and induced to explain matters.

TORN TO PIECES.

The Horrible Fate of a Tramp at Rurbank.

Coroner Meredith went up to Burbank yesterday morning to hold an liquest on the body of a man run over and killed at that place Wednesday night by a train on the Southern Pacific Railroad. The saan was noticed about the depot at Burbank during the evening, and was then under the influence of liquor. He said that his name was J. O. Dowling, or Dolan, and that he had just come from San Bernardino, where he said that he had worked for two years past for a contractor named Kelly. Dolan was a man about 49 or 50 years of age, and said that he was on his way to see a man named Jim Hanley, a boss plasterer at Tulare. He said that he had been in Los Angeles, where his ticket, check and 47.50 in money had been taken away from nim, after he had been filled with liquor, and for this reason he was trying to beat his way north. The deputy constable had him in charge at the time he made this statement, but released him and thought nothing about it. After the train passed the body was found lying scattered along the track. The supposition is that he attempted to board the moving train, when he missed his hold and fell beneath the cars, which passed over him, crushing him to pieces. The jury returned a verdict of accidental death, exponerating the railroad people.

After the inquest Coroner Meredith found a letter in one of the pockets addressed to H. C. or D. C. Hare, written in red ink, from his d uphter in Sacramento, from which it is believed that this may be his true name. Two whisky bottles were also found on the corpse, one of which was empty and the other about half full. The remains were brought to this city and buried at the County's expense.

At the close of the exercises at G.A.R. Hall last evening the formation of a Central Relief Committee of the Woman's Relief Corps was announced. All people who have cast-off clothing for men, women or children are requested to leave it with Mrs. Charnock, Los Angeles street, at the foot of Sixth. It is said that there is a good deal of destitution and suffering in the city.

Yesterday afternoon Officer Collins brought a couple of men to the police station, saying that one of them had objected to the other following him, saying it was for an improper purpose. It was developed at the station that the complainant was of weak mind, and was traveling in charge of the other as keeper. On this statement, the men were discharged.

ANNUAL TRADE NUMBER,

-CONTAINING

A COMPLETE REVIEW OF THE YEAR.

Fifty-six Large Pages. Equivalent to a Two Hundred Page Book.

The Annual Trade Number of THE TIMES, now ready, is the most complete and in teresting publication of that character ever published in Los Angeles.

NOTABLE FEATURES—It contains a business review of the year, embracing a great mass of valuable facts bearing on the city and county; a thorough exposition of our natural resources—mineral, vegetable, commercial and climatic; a review of the rise s 'd progress of the boom, with solid proofs that the country is now in better condition than it was during the height of the real-estate excitement; a carefully compiled exposition of the varied inducements which Southern California offers to the health-seeker, the homesceker and the tourist, besides a number of interesting and valuable special articles on pertinent subjects. It contains more solid information about the country than could be crowded late the compass of a hundred long letters, and for a few cents and the expenditure of a few minutes' time in writing the address you can send a friend more la'ormation than you could write in a month, even if you had all the facts at hand. For a dollar you can supply ten families in the freesen East with information that my lead them to join the army of pilgrims to Southern California, to their own and this country' sadvantage. Thus, whether viewed from the standpoint of friendship or self-interes 1 w. ill seem that no better use can be made of a dollar than by purchasing the rewith ten copies of the great Annual Trade Number of THE TIMES. Not one-tenth of the pleasure est be bestowed in any other way for the same amount of money.

THE Trombone wants to get Sam Jones to labor to save it from disaster. The spectacle of the "reverend" Sam defending the person with the One Dollar Reputation in the pulpit would certainly be an edifying one.

THE Democratic State Senatorial caucus has decided to reject Mr. Waterman's appointment of Smoothy as Brigadier-General. The Democratic Benators can stand a good deal, but the person with the One-Dollar Reputation was a little too much, even for them.

REAL genuine Democratic reform such as has begun in Delaware by the election of a Republican Senator, is the kind of "reform" that the people of this country will take to, and it is worth a good deal more than all that has been accomplished politically by this "reform" administration.

Mr. Allison is a warm friend of pilver, and for that reason we of the Pacific Coast would be glad to see him receive the Treasury portfolio. It is asserted that in case of his appointment he would authorize the coinage of silver up to the limit of \$4,000,000 This would run the people's metal up to par, and be of in-estimable benefit to the Pacific Coast.

THE Sacramento Bee, in speaking of the alleged condition of business in Los Angeles, falls into a serious error to our injury. It makes the mistake of taking the condition of a local bank rupt newspaper (brought to the verge of ruin by fraud, embezzlement and robbery) as an evidence of the status of general business in this city! What superlative absurdity! What brokenbacked logic!

A FAKING and failing local shee ostentatiously prints a schedule of its alleged virtuous acts-a "platform of principles," so called-but the premie fakir and master hypocrite himself singularly fails to publish his own personal platform, the chief plank of which may be expressed in these words: "Lord, I thank thee that I am not as other men. THE Samoan question now seems to have reached a state of tension where something is liable to break at any time. It is not impossible that Bismarck and his fire-eating Emperorpupil may court a foreign war, as a eans of diverting the attention of the German people from their ever-growing dissatisfaction with the Bismarck régime, but it would be a desperate step to take, with France at the rear, dy to pounce on its old enemy at a moment's notice, in the hope of recovering its lost provinces. It is a

TO LANDOWNERS.

Landowners who have farming lands in this section for sale at reasonable prices and on easy terms are invited to forward their names and addresses to THE TIMES, when they will receive blanks to fill up with particulars, for publication in a tabulated statement of such lands which we shall publish as soon as complete returns are received. A little delay will be necessary before the blanks are ready; but in the meantime landowners may send in their names and addresses, which information is of course preliminary to the sending off of the blanks.

Touching Certain Municipal Evils.

Among other matters which the citizens of Los Angeles will expect the next Council to regulate, amend, and reform, is the granting of franchises, and the letting of contracts, for various municipal purposes. During the late lamented boom period.

the granting of franchises for street railways and other profitable enterprises was, in common with a majority of other business undertakings, carried on in the most easy-going, happy-golucky manner imaginable. The person or persons who wanted permission to build a street railroad, from the Courthouse to Boomville, or East Paradise, or South San Saleratus, via all the principal streets of the city, only had to ask for it to get it, while the projectors of a steam railroad fram Alkali Slough or any other future inter-continental port, to Labrador, or to Skagit River, via Los Angeles, were considered to b doing this city a signal favor in accepting, besides a franchise through the municipality, a free deed to a score or so of acres of city land in consideration of their not going around Los Angeles and building up a rival city of their own in the suburbs. Fortunately -or unfortunately-the city has no longer anything to give away, except rights of way over the streets, and

A similar style of action prevailed in regard to the letting of contracts for street grading, or other city improve ments. The lowest bidder got the con tract, and nobody ever took the trouble to inquire as to the power of the bidder to carry it out. Everyone was supposed to be wealthy in those days, and then it was almost a condescension for a man to be willing to trouble himself with such things as contracts when he | yard. could make money so much more easily in real estate. As a consequence, many contracts were not carried out, and had to be relet at the cost of much de lay, inconvenience and expense to the

The people will expect this haphazard style of business to cease, from now on. We have got through with sowing our wild oats, and are learning the value of a dollar. We expect to get the equivalent of 100 cents for it. Contracts for municipal work should only be given to persons who have the means to carry out their agreement, or, at least, only to those who can give good and sufficient bonds, which will bear scrutiny, and which should be forfeited, without fear or favor, in cas of failure of the contractor to fulfill his obligations. We need a man of firmness and determination in Mayor's chair, who will look out for such speculative contractors as attempt to play fast and loose with the city, and we need good, solid, business like men in the Council to back him, so that these schemers may be brought up with a round turn and taught that the city government is not a plaything. Look at the abominable manner in which the paving of First street has been delayed, and the entire put to immense inconvenience, all or account of two quarreling contractors. No private individual, firm or corporation would have submitted for one week to be treated as these contractors treated the city for months. With a little firmness on the part of the city government, the contracts of thes nen would have been annulled, and the job given to some one else. Other instances of municipal cowardice, timidity, dilatoriness, or treachery to the in-terests of the citizens, may be found in the manner in which the street railroads are permitted to keep many of the roads in a dangerous condition, by having their rails several inches above having their rails several inches above the grade; in the matter of the Second-street extension road; of the Aurora street outrage, and a dozen other in-stances, which will immediately oc-cur to any citizen who has watched the pusillanimous or interested manner in which the people's interests have been handled by their chosen repre-sentatives.

sentatives.

cellent chance to make a good start in another direction, by selecting good, solid, approved citizens to fill the various offices under the new charter. Above all, let them see to it that we get good men in the legislative department-the Mayor and Councilmen. As a rule, the chief interest is centered around the clerical positions, on account of the remuneration attached thereto, but, as councilmen are paid under the new charter, we may expect more competition for those offices. There will be plenty of wolves, also willing to guard the municipal fold. See that they are sent to the rear, at the double-quick. Let none but good men be placed on guard.

THE street-car service between this city and East Los Angeles is most hor-ribly and aggravatingly bad. To the man-about-town, with plenty of spare time, it is annoying; to business men and ladies it is an outrage, and to workingmen, who have to reach the scene of their labors at an early hour, it is an insufferable hardship. It would be well for the City Council to inquire whether this service, as at present conducted, is in accordance with the company's franchise. In case it is not, an immediate improvement should be de manded, under penalty of a revocation of the franchise. Failing this means of redress, the only other apparent remedy is for the East Los Angeleños to put on a line of carry-alls, as their Boyle Heights brethren were some time ago compelled to do.

THE Trombone, in its dying agonies. breaks out into a pitiful wail for assistance from its "thousands of warm friends." It recapitulates the great things it has accomplished for South-ern California, and formally "re-dedicates" itself to the people of Los Angeles and Southern California, promising them, among a large num ber of equally bulky things, the bringing in of a million people, the building of a perfect sewer system, and "the tender, fostering care of the noble charities in behalf of the dear children." What a sublime apotheosis of hypocrisy! The antics of the Trombone gang remind one of the scene on board a sinking ship, when every one is praying, yelling or invoking his

CALEB W. WEST, Democratic Governor of Utah, says that if his party should give that Territory Statehood, it would be a fearful and fatal blunder and would make it impossible for the Democratic party ever to carry a single Northwest State. This testimony from a Democrat who understands the situation ought to silence those unscrupulous politicians who are clamoring to have Utah admitted.

THE Pennsylvania Legislature is setting about the task of suppressing the White Caps, in dead earnest, as every State should do where this organization exists. These law-makers of Pennsylvania propose to make the penalty for writing "White Cap" letters three 'years' imprisonment and a thousand dollars fine. That ought to prove effectual.

CONGRESSMAN DAUGHERTY Florida says that Utah should be admitted to the Union because the people of the Territory "are among the most reliable Democrats in the country." The sentiment is one which s doubtless appreciated by the Democratic party at large, but the trouble is they have not the honesty to admit it.

Escaped from San Quentin. San Rafael, Jan. 31.—Three convicts, named Fitzgerald, Guerin and Forney, escaped from San Quentin prison this morning by climbing over the wall of the yard by means of a ladder and disappearing in a by means of a lauder and decret dense fog.
SAN QUENTIN, Jan. 31.—William Forney, one of the three prisoners who escaped, was captured near the San Rafael graveyard. The other prisoners are still at large.

McIntosh, has been in town for the past few days endeavoring to pass a check for \$250, purporting to be drawn on a Los Angeles bank by C. J. Shepherd, a fruit packer of that city. It is known that the check is a forgery, and officers are on Jeffries's track. He failed to pass the check, and left this afternoon for other parts.

Abandoned the Knights.
PITTSBURGH, Jan. 31.—The National
District Assembly of Machinery Constructors, Molders, Pattern Makers and Boiler Makers has decided to withdraw from the Knights of Labor and form an independent organization, to be attached nominally to the American Federation of Labor. There are probably 8000 members in the organization.

Coleman's Agent ned.

San Francisco, Jan. 31.—The assignees of William T. Coleman & Co. have commenced suit against Eugene E. Jones, who was at one time Coleman's confidential agent at Liverpool, for an accounting. It is claimed that Jones received several large shipments from the firm, for which he has never fully accounted.

Parliament Opened.
OTTAWA (Ont.), Jan. 31.—The Governor General opened Parliament today. In his speech, he said he regretted that the fisheries treaty with the United States had not been ratified by the Senate, and said it only remained for Canada to maintain the treaty of 1818 until a satisfactory readjustment was made.

Murderers Arrested.

SAN Disco, Jan. 31.—The two men concerned in the murder of George Minoli at the Garibaldi Hotel last night have been arrested. Tonnin was imprisoned last night and Emanuel Canopa was captured at National City today. The latter acknowledged the stabbing.

Swift Going Into the Cabinet. CHICAGO, Jan. 31.—United States Sen-tor-elect Washburn of Minnesota is here going east and says from a talk with Har-rison that he has reason to believe Cali-fornia will be given the Secretaryship of the Interior, and that probably Swift will get it.

Another Discussion on the Oklahoma Bill in th House—Resolutions Adopted by the American Shipping League-Outlook for

By Telegraph to The Times.
Washington (D. C.), Jan. 31.—[By the Associated Press.] Senate.—The Senate resumed consideration of the Diplomatic and Consular Appropriation Bill, the pending question being on the amendments re-

sert the words "and for the protection of the rights of American citizens residing on said islands, and to preserve the neutralit and independence thereof.

Mr. Hale objected to the last clause. The Senate should not declare the intenti preserve neutrality or maintain the independence of any nation. That was for the Executive to do.

Mr. Sherman agreed with Mr. Hale, say ing the words proposed to be inserted weakened rather than strengthened the

weakened raner inan strengthened the statement of the matter. It was "Fourth of July" language. No American has been hurt so far.

Mr. Frye did not agree with Mr. Sherman that no wrongs had been committed in Samoa against American citizens. He thought the evidence very conclusive that wrongs had been committed on them, but that was not the issue, and he hoped the Senator from Texas would not insist on his amendment now. It did not comprise all that Congress ought to do. The remarks of the Senator from Texas came very much nearer to it than the report of the committee. It was not German, it was not Bismarck, it was nothing but a German trading firm. That firm had absolute and supreme power loday over the Samean Islands, and the German Consul received his orders from it. Germans had, without any authority, and with one of the gravest insults ever committed against the United States, deliberately elevated to power and made King a rebel, Tamasees, who had not a Samoan chief behind him, not one. Tamasees was nothing but a puppet in the hands of the German trading firm. If he were permitted to pe established, and were recognized as King, one of his first acta, under instructions of the German trading firm, would be to give the necessary notice for the abrogation of the treaty with the United States, and the harbor of Pago Pago would be utterly lost to the United States. In his judament the amendments reported by the C mmittee on Foreign Relations did not bring up the real Samoan ques ion. The real question at issue between the United States and the Germans was not necessarily before the Senate for discussion under these items of appropriation, nor, in his judament, was the Senate ready today for the discussion. He expected to see the day come, and ere long, when there would be a proposition before the Senate that would be ingenied was still a secret document, and until it was made public the real question could not be properly discussed. There is not a fourth-rate power in Europe which, if it had been a party to the

had been placed at the mercy of German traders through the action of the German Government, the fact ought to be recog-Government, the fact ought to be recognized and one of two things ought to be done. If the rights of the United States were to be abruptly abandoned, the American consul and commanders of American ships ought to be called home and not subjected to insult and degradation, and whatever rights the United States had there ought to be abandoned, or else the rights which belonged to this country ought to be asserted squarely and manfully.

Mr. Frye added some further remarks as to the importance of the harbor of Pago Pago to the commercial and other interess of the United States on the Pacific Ocean, and then proceeded to read and comment upon an Associated Press dispatch just re-

dispatch and comments ran along in this way:

"Advices from Samoa state that the German officials have given notice that all vessels arriving there will be searched for articles contraband of war. [So that the right of search of American vessels—If this dispatch is correct—is asserted by Germany.] They have suppressed the Samoan Times. [If this is true, then free speech is stopped in Samoa.] A passenger on a British steamer, who visited Mataafa's camp, was immediately put under arrest, but was subsequently released in compliance with the demand of the British Consul. [If he had been an American I suppose it would not have been done.] A proclamation has been issued putting the Apia police force under German control. Mataafa's followers number 6000. They are strongly intrenched. Other Samoans are rapidly joining them. On the arrival of the steamer Richmond she was boarded and searched for guns."

Richmond she was boarded and searched for guns."
"Of course," Mr. Frye continued, "I do not know whether the statements in this dispatch are true, but if they are true then three assertions are made by the Germans in Samoa. One is the right to search American vessels going into the harbors of a Nation with which we are in treaty relations; the second is the suppression of free speech; the other is assuming the control of the police of the Apia municipality, which by agreement between Germany, England and the United States and the Samoan King was made neutral ground." England and the United States and the Samoan King was made neutral ground."

Mr. Reagan: In view of the remarks of the Senator from Maine (Mr. Frye), who is a member of the Committee on Foreign Relations, it would be perhaps best to let the amendment pass as reported, and in view of the fact that matters are very rapidly assuming such shape that we shall probably have the question before us in another form very soon, I withdraw my amendment.

Mr. Hale expressed the belief that German interference in Samoa had been the direct act of the German Government and in pursuance of a settled policy on the part of that Government.

that Government.
The amendments were then agreed to tonight on the claim made by the latter that he is entitled to 30 days credit for good behavior.

The report shows that the working women of great cities are practically girls. The average age in all the cities comprehended was 22 years and 7 months. The average period during which women have been engaged in their present. months. The average period during which women have been engaged in their present occupation was shown to be four years and nine months, and of 16.427 women involved, 9540 are engaged in their first trial at earning their own living. Of the whole number 14.120 are native born. In the foreign born, Ireland is most largely represented, and Germany next. A great majority of the women are single. They are not only supporting themselves, but giving their earnings largely to support others at home. The reports shows that of 17,428, who reported their health condition at the time they commenced work, 16 360 were in good health. S30 in fair health and 183 in bad health. The changes in health condition are illustrated by the fact that 14,554 are now in good health, 2345 are in fair health and 489 are in bad health. The average weekly earnings, by cities, show that San Francisco is the highest, with \$6.91, and Richmond, Va., the lowest, with \$3.93. The average weekly wages, computing all cities examined, was \$5.24.

Strong Resolutions Adopted by the American hipping League Washington, Jan. 31.—[By the Associated Press.] At today's meeting of the American Shipping and Industrial League, Gen. Joseph Wheeler of Alabama was elected president for the ensuing year. Resolutions were adopted favoring the passage of the Tonnage Bill, which asks for an allowance from the Government for United States built and owned vessels of 30 cents per ton each 1000 miles sailed or cents per ton each 1000 miles sailed or steamed; also favoring a system of coast defences, the rebuilding and equipment of a strong and efficient navy, the improve-ment of harbors and rivers of the whole country, adequate compensation for carrying the mails, and the passage of the Navy Re-serve Bill.

THE AGRICULTURAL APPROPRIATION.

The Agricultural Appropriation Bill, completed today by the House Committee on Agriculture, proposes an appropriation of \$1,630,010 as compared with estimates of \$1,6,6,160, and an appropriation for the present year of \$1,715,826. The appropriation of \$100,000 made in last year's bill to enable the Commissioner of Agriculture to continue experiments in developing sorghum cane is omitted in the present bill. The regular appropriation of \$100,000 for the purchase and distribution of seeds is made. A provision is inserted requiring the Commissioner of Agriculture to supply these seeds directly to the several State agricultural experimental stations for distribution by them. This provision will deprive Senators and Representatives of their usual quots of seeds. THE AGRICULTURAL APPROPRIATION.

THE QUESTION OF NEW STATES. The Republican Senatorial caucus today adopted a resolution insisting upon the ad-mission as States of North and South Dakota, Montana and Washington. While it was regarded as expedient that constitu-tional conventions should be called in the two Dakotas to pass upon new constitutions,

the Senators are resolved that another vote will not be required upon the question of division.

There was a lack of unanimity, however, in regard to New Mexico. Senators were not wanting in support of adoption of a non-partisan policy which would include that Tarritory.

The final decision of the cancus was that the Committee on Territories should frame a substitute for the House bill so that its rejection by the House would saddle that body with an unpleasant responsibility to the people of the West.

PARIS, Jan. 31.—[By Cable and Associated Press.] In the Chamber today Jouvencal interpellated the Government regarding the measures it intended to take to arrest the progress of Boulangism. The Govern-ment, he said, ought to defend itself from the attacks of slanderers.

Premier Floquet, before replying, asked leave to introduce a bill reëstablishing the

scrutin d'arrondissement system of election.

Deputy d'Ornano, Bonapartist, exclaimed:
"The only possible issue is dissolution of the Chamber."

Cazeaux, member of the Right, asked to speak on a matter of urgency.

The President decided that the House must hear Floquet. Great confusion ensued.

Floquet held that the establishment of the scrutin d'arrondissement system would in no way assail universal suffrage. The Government did not think measures ought to be taken against the liberty of the press, but was bound to legislate against those seeking to overturn the Republic. The existing laws dealing with hostile combinations were inadequate. The Government would propose fresh measures for the repression of attempts against the security of the State. Universal suffrage had become the tool of all sorts of commercial combinations through syndicates operating through paid bands of agistators.

Cassagnac reproached Floquet with attacking universal suffrage, and said it was not members of the hight upon whom fell the duty of defending suffrage against the Government. Universal suffrage commands; it must be obeyed. "Dissolution" had practically been made the test word. The situation for the ministers could be summed up in the phrase.

Los Angeles, Jan. 31.-{To the Editor of The Times.] In your report of the proceedings of the City Council, last Monday, I am quoted as charging Capt. Barrett with "standing in with last Monday, I am quoted as charging Capt. Barrett with "standing in with the Vernon-street Railroad Company" in their opposition to my obtaining a franchise for a street railroad on Wolfskill avenue. I wish here to disclaim any intention of charging Capt. Barrett with having personal reasons for his opposition, for I have no reason to believe that he had such motives, and I do not wish to do him an injustice, but I believed then that the Vernon Railroad Company had unjustly prejudiced him against my interest. While my application had been before his committee months before the Vernon-street Company had applied for their present franchise, mine was smothered in his committee because a part of the route was over private property; while his committee did report favorable and the Council did grant the Vernon-street Company a franchise over a route which was then and is now partly private property.

On last Saturday the committee of the Board of Public Works agreed to report favorably on my application, and I was greatly surprised when Capt. Barrett moved to postpone action thereon.

I wish here to call attention to the statement of Mr. Frank Gibson, secretary of the Vernon Street Railroad Company, who stated in the City Council chambers that I was seeking this franchise, in violation of an agreement with his company. This statement is not true. There is no such contract existing. I suppose that Mr. Gibson was misinformed, but now I ask him to produce such contract before the Committee of Public Works or acknowledge to it his error, otherwise I trust that the Council will pay no further heed to the interference of him or his company in our business.

Recess.

After recess the Glenn County Bill was laced on the third-reading file.

Three Assembly bills all relating to irriation, were read a second time.

The Committee on Judiciary made two sports on the Assembly bill to provide for have farmed it in the East very few know how to raise forest trees—they have rayment by municipalities of claims know more about cutting them down.

And for that matter, most of our rapid-growing trees are new to them anyway. The eucalyptus and pepper trees for various uses, and the cypresses for hedges, seem to be considered necessary to every new home; and yet they all cost money when bought ready to set out, and money is often less pientiful than time with our small ranchers. A man who buys a few trees will set them out, and in that may end his tree planting, whereas, if he had raised some himself, he would not only have more to set out, but would feel encouraged to do it again. One takes an especial pride in the trees that he has "raised from the seed himself."

It may be thought difficult to raise a

It may be thought difficult to raise a tree from the seed, but it is not at all so. One must of course know how to procure, treat and plant the various seeds, and how to nourish them after germination; and that is just what should be frequently published.

Not every one knows how to start the common eucalyptus, or blue gum. The seed may be procured from any seedsman. It is imported from Australia, as the seed of the tree grown in this country is not always fertile. The price was formerly 75 cents per ounce, but is probably less now. One ounce contains about three thousand seeds. They can be started in shallow boxes or bed. The soil should be a mellow mould, or sandy loam. It should be such as will retain moisture, and not become hard with watering. The beds or boxes should be located under the shade of some tree, or be partially protected from the direct rays of the sun by an awning of brush or lattice. Have the soil well pulverized and leveled.

The seed is not to be soaked or scalded, as is the case with that of the pepper and acacia, but is planted dry. It may be sown broadcast, allowing two or three seeds to the square inch; or it may be sown in little drills or depressions about an eighth of an inch deep, and from one to two inches apart. These little "marks" may be made by a small pressure with the edge of a piece of lath or thin stick. With the thumb and finger the seeds may be sifted along in these drills, dropping them about half an inch apart in the row.

Next sprinkle fine sand over the beds, covering the seeds about one-quarter of an inch deep. It is a great plan to sift a little sawdust over all, as it assists in retaining the moisture. Now. as this thin covering of sand will readily dry out in warm weat her, it is necessary to carefully water the beds every day, or often enough to keep the soil moist. The best time to sprinkle is in the early morning before the sun is hot. Use a fine sprinkler that will not disturb the surface, and take care not to flood it, lest many of the little peeds should fl

pear, and they must be pulled out as soon as it can be done without disturbing the tiny trees.

When the young trees are from one to two inches high, and have several pairs of leaves, they should be transplanted to the boxes in which they are to remain till finally set out. Take a little stick, or your finger will do, and punch holes, about two inches apart and two inches deep, in the soil of the box to which you are about to transplant. These boxes should contain soil four to six inches deep. Then stick the blade of a knife, or any suitable implement, down alongside a little tree, scoop it out with the dirt about its root, place it in a hole in your other box, being careful not to bend or double up the tender root, and press it closely in place.

The only attention required there-

up the tender root, and press it closely in place.

The only attention required thereafter will be to keep the soil in good, moist, growing condition, and to pull out the weeds that may start.

The object in transplanting the tiny trees is that they may be placed at regular distances apart, thus insuring a uniform growth and making them much more easy to handle when setting out, as each tree may then be cut out, with the earth about its roots, without interfering with its neighbors.

as each tree may then be cut out, with the earth about its roots, without interfering with its neighbors.

The eucalyptus does better when set out quite small. Like all trees that grow tall, it has a long tap-root, and if the trees remain long in shallow boxes this tap-root will strike the bottom of the box and shoot off laterally, whereas if the tree be planted quite small its root will not be deformed. "As the twig is bent, so is the tree inclined." With a faulty root, the tree will not only not grow as thriftily, but may be blown over in a strong wind.

In Southern California the seed should be started in the spring or summer, and the trees set out in the early winter. They will get a good start during the rainy season and require no watering the following summer. Any time of the year will do, however. The sooner the better.

I have used many words and hope I have said something. At all events much might be said on the subject of tree planting and it should be said often. Every one who has land in the country should grow as many trees as he can.

The "Foresters" can tell us what

often. Every one who has land in the country should grow as many trees as he can.

The "Foresters" can tell us what kinds are more valuable for timber, and how to get the seed, and how to grow it; but any one and every one can grow the pepper, pine, palm, fig, olive, locust, acacia, mul-berry, walnut (both the English and the black) and many others. All our gulches and hills should be studded with growinr trees.

If some one else does not describe the modes of starting the various trees mentioned above, I may try to do so myself before long. Many people may think, like myself, they know how to do it, but will often fail because some little point has been overlooked. For instance, a gentleman writing of some trees he had grown from the seed, said he "had found it no trouble at all." He had some acacias in his germinating bed that "were planted in April, and in November they were about four feet high." They had done nobly! His only trouble was, as he probably found out, that he planted his seed too soon. The acacia is almost untransplantable, except when very young. It should be only a few inches high, at most. The lack of that knowledge made his fine bed of acacias a failure after all.

Made a very valuable and important discovery while investigating the water supply of the Otay Vailey, San Diego county. They came upon a series of living springs, the water of which has similar properties to the celebrated WAUKESHA WATER,

WAUKESHA WALEM, Clear, sparkling, agreeable to the eve and refreshing to the taste; one spring already yields 5,000,000 gallons per day, and other springs can, by development, be made to yield equal quantities. This water has been piped to South San Diego, Coronado Heigats, and Cor-onado Beach, and used with the ut-most satisfaction and favorable results. AN ANALYSIS

Made of this late discovery by the celebrated chemist. C. Glibert Wheeler of Chicago, shows that it is exceptionally pure, and is possessed of highly m-dicinal qualities, which act as directly and favorably on all kidney troubles as THE WAUKESHA WATER.

The above is fully borne out by the result of its use for several months among the guests of the Hotel del Coronado. Many severe cases of kidney disease among elderly people have been greatly improved, and others completely cured.

SIMI RANCHO! Cheap Lands. Good Lands. Prices

and Terms to Encourage Settlers.

So much has been said and written about the high prices for ordinary farming and fruit land in Southern California that many Eastern people think that no good land can be had at less than \$20 per acre in any good locality. But if you will call at the headquarters of Simi Land and Water Company you will find that you can buy well watered stock ranges at \$5 to \$15 per acre, and overy one of these ranges contains more or less good farm ranges at 85 to \$15 per acre, and every one of these ranges contains more or less sood farming land. You can buy first-class valley lands for \$30 to \$75 per acre, and small tracts of 10, 20 or 40 acres, for fruit farms, at about the asme price. Colonies who want from 1000 to 5000 acres can be placed on me lands, suitable for dividing among their members, at \$25 to \$40 per acre. This company cares nothing for booms, and sake no inflated prices for their lands. We own nearly 100,000 acres, and have a perfect and undisputed title. The object is to furnish good lands, to actual settlers, at prices within reach of any who can buy land at all, and on terms which will enable men of moderate means to acquire homes in as attractive and healthrill part of Southern Carlind in the citate, and at present are not directly on a railroad, but expect to be before long. But we do claim to offer better land and more advantages and on easier terms of payment than any other place that has been brought to our netice. It will cost you nothing but a postal card to get detailed information about these lands. If you want a farm or a stock range write or call at 19 West First street, Los Angeles, and ask about the Simi ranch.

James Kirkpatrick, who found a lodging in Mrs. Green's house during that lady's absence, and who was subsequently arrested, was released from custody this morning. The gentleman was in needy circumstances, and rather than be a companion to cold mother than be a companion to coid mother earth had sought seclusion in the home of Mrs. Green. The Court exercised leniency and dismissed the complaint.

NEEDS A HORSE WHIPPING. Family quarrels are seldom occur-rences, but then they happen their bring unpleasantness. For some time a married woman of good address has been riding a high horse, and while the hard-working parent was at home minding her offspring, the mother of the neglected children has been spending her time among her male acquaint-inces. The visits have been extended to Los Angeles, and there two or three times a week can she be seen in company with an old gray-haired gentleman, whose feet are now on the verge of the grave, promenading up and down the main thoroughfares, laughing and joking. A few evenings since she was seen in the company of a railroader, and the affections which each lavished on the other would make a young engaged couple sick. Night after night this woman is seen in other men's company, roaming about the streets. The woman in question resides in Olivewood, and we understand unless she stays at home, a number of times a week can she be seen in comsides in Olivewood, and we understand unless she stays at home, a number of White Caps will pay her an early visit. The press is frequently condemned for an expose of this kind, but when it shows the public a husband and children neglected, and an erring wife, whose pride and love for her family have fallen, it does wonders in uplifting the community as to what is intolerable.

LETTERS TO THE TIMES.

The Religious Discussion. No. 317 SOUTH HOPE STREET, Jan. 28.-[To the Editor of THE TIMES.] Dr. Fay said in his sermon on "Liberal Christianity" that between the lids of was the Bible the doctrine of the Trinity not taught. Will he please tell the world what Christ means when he says: "I and my Father are one?"-John x, 30. He also said in John xvi. 7 to 14, that when He departs from this world He would send the Comforter unto them when He departs from this world He when He departs from this world He would send the Comforter unto there—that is, the third person in the Trinity, and Philip, speaking with Jesus, said: "Lord, shew us the Father." He said: "Have I been so long with you, Philip, and sayest thou, 'Shew us the Father?' He that hath seen me hath seen the Father.—John xiv, 8-10, and in the epistle of John v, 7, it says: "There are three that bear record in heaven—the Father, the Word and the Holy Ghost; and these three are one." What is that but the Trinity? And Christ commanded His apostles to teach he Trinity as it is written in Matthew xxviii, 19: "Go ye, therefore, and teach all nations, baptising them in the name of the Father, Son and Holy Ghost." In regard to the Word, who is the Word? St. John tells us in i, 1, that "in the beginning was the Word, and the Word was God." In verse 14 we read: "The Word was made flesh and dwelt among us." Who was it God spoke to when He said: "Let us make man in our own likeness." (Genesis i, 28). Christ explains it in John xvii, 5, where he asks the Father to glorify Him "with the glory he had before the world was." and St. Paul teaches that "God was in Christ Jesus, reconciling the world unto Himself." Here we see plainly how Moses, John and the Lord Jesus explain the Holy Trinity. These, Mr. Fay, are only a few of the many passages between the lids of the Bible that prove the Trinity.

Now, in regard to the other doctrines you taught. According to the Bible you are in error. You liberal Christlans have either got to make a bible to antity correspondent.

Now, in regard to the other doctrines you taught. According to the Bible you are in error. You liberal Christians have either got to make a bible to suit yourselves or take ours as it is. Have you read what God says in the last chapter of Revelations about adding or taking from? But liberal Christianity cannot take the Bible as it is and maintain their own doctrines. Now, in regard to orthodox Christianity. What is it? Certainly not

what you made it out to be, for you only assailed so-called professors of it, and Christians have to admit that there are many black sheep who are church members and call themselves orthodox. But you know that to be a professor is one thing, but a possessor is quite another; and it is very unfair to take the black sheep of the church and hold them up to the world as orthodox. In regard to so many leaving the church and becoming liberal in their views, I will say: Among a large acquaintance of mine in both hemispheres who have changed their views, I have yet to find the first one who had been a possessor of true religion, who afterwards went over to liberalism; but the seceders have been of that class who have so much of this world's wisdom that they could not see the simplicity of true what you made it out to be, for you only assailed so-called professors of it, and Christians have to admit much of this world's wisdom that they could not see the simplicity of true religion, hence they failed to get it, and drifted into infidelity, which all liberal Christianity really is in a milder form. You may twist and screw the Bible as much as you please, but the facts remain the same, and will throughout eternity.

Respectfully, Mrs. J. C. ZAHN.

Costly Water. No. 20 FRIEND AVENUE, Los ANGELES, Jan. 24.—[To the Editor of The TIMES. J I have noticed letters in your paper quite frequently denouncing high rents, high prices of land, and paper quite frequently denouncing high rents, high prices of land, and other necessaries of life which are exorbitant in price. But in my four years' residence in your beautiful city I have never seen one word in your paper about something that is more exorbitant in price than either of the foregoing articles; something that is sapping the very life out of poor owners of homes in this city. And that is the unequal and unjust price of water rent. I have crossed the continent twice, visited most all the cities of any prominence in it, and nowhere in my traveling have I seen a town with such an abundance of pure, clear water all around it as this that charges more than half the price that the owners of the Los Angeles city water monopoly compel the people to pay \$2.25 and \$3 a month for water! with the privilege of using it only at certain hours. Why are we compelled to pay lawn water 12' months in the year when we only use it about six?

I glance over last Thursday's paper and read: "Dividends of the Los Angeles Water Company for the year 1888 have been declared, which amount

and read: "Dividends of the Los Angeles Water Company for the year 1888 have been declared, which amount to \$45,465." That vast sum of money to be divided among a few men, who, perchance, spend their time driving about the city in their crrriages, watching the homes of the poor, lest they might use the water at a forbidden time, so as to give them the choice of one of two things—pay two more dollars or have their water shut off.

water shut off.

I hope the people will rise up in their might and declare such prices as I have here enumerated unjust. I am positive these are the sentiments of the majority of water renters in this city,

majority of water renters in this city, who are too timid to go into print.

It is nothing more than robbery for a few rich men to increase their wealth by the labors of the many.

May God speed the day when this city will own and control its water works, like so many of our eastern cities; then we will have justice.

Respectfully, W. C. WOLFE.

New arrivals at the Painter Hotel:

May is the Russian Pacific Railroad, intended to connect St. Petersburg and the Baltic with the Pacific Ocean through Siberia. This will open a whole continent of fine agricultural and stock lands, beside the best timber in the world, and mines of great value. At present great provinces, capable of developing enormous manufacturing industries, as well as agricultural and mining, are shut up from the world, and must remain so until railroad facilities are afforded. But Russia has also in view to capture the overland trade from afforded. But Russia has also in view to capture the overland trade from Western China, now carried on by means of dromedaries. Fifty thousand of these animals are now in use transporting tea. The astonishing development of the American Northwest seems likely to be followed by the development of Northern Asia somewhat in proportion. Of course, the first and main object of Russia is political; but commerce will ultimately control all such enterprises. Meanwhile the European states are planning the most extensive operations in the way of opening up Africa to trade.

opening up Africa to trade.

How Men Die.

If we know all the methods of approach adopted by an enemy we are the better enabled to ward off the danger and postpone the moment when surrender becomes inevitable. In many instances the innerent strength of the body suffices to enable it to oppose the tendency toward death. Many, however, have lost these forces to such an extent that there is little or no help. In other cases a little ald to the weakened lungs will make all the difference between sudden death and many years of useful life. Upon the first symptoms of a cough, cold or any trouble of the throat or lungs, give that old and well-known remedy—Boschee's German Syrup a careful trial. It will prove what thousands say of it to be, the "benefactor of any home."

"GIVING PARTECT SAVERPACTION."

J. W. Ross, Pasa-lena, writes: The TimesMirror Sewing-machine is giving perfect estfaction; in my op, aion it is as good as any
166 machine. I have not done any heavy world
on it yet, but I thank it will do it all right.

"MIGHLY PLEAGED WITH IK."

Mrs. Edwin Brown, Loy Angeles: In reply to yours of 28th would state that I am highly pleased with the Premium Bewing-machine I received with the Mission. Gives every satisfaction; so easy to learn how to managed does such excellent work; in fact cannot insise it too much, and would not take twice the amount it cost me.

Mrs. S. A. Ware, Pasadens: I have used
your sewing-mackine since last July. The
more we use it the better we like it. On fase
and heavy work it is splendid. We have wied
the at solument. In fact it goes shead of your
advertisement so far.

"LIKE IT RETTRE THE \$126 STREET."

Joseph Wilson, Los Angeles: The machine
gives entire satisfaction. My wife likes it
better than the \$125 Singer that it has replaced.

"GIVES GOOD SATISPACTION."

S. W True. Bast Los Angeles: We have
High-Arm Machine and use it for light fa
sewing. It gives good satisfaction.

RUSS EMOOTH-AND SHWS EVERYTHING BUS

William P. Wade. Los Angeles: The report of the chief engineer of the sewing department of my dementic establishment is to the effect that the sewing-machine lately furnished by you for \$22 arrived in good order and in due time, and has given entire satisfaction. It runs lightly and with very little noise and performs to perfection all kinds of sewing work with the exception of buttons. [When the freight is paid to Los Angeles by the Times-Mirror Company the price is \$25.16.9.

"TRIED 'ME ALL AND LIKES THE MIRROR MA-CRIME BEST."

William L. Price, Zil Temple street, Los An-geles: My wife tried several \$75 machines, and chose the Mirror Premium Sewing-ma-chine as an equal to the best in the market, for one-fourth of the mansy. It is perfect in all particulars, and admired by all whe see it. My wife has been using it several into this, and My wife has been using it several months, as we both cheerfully recommend it to the pu

C. E. Spenser, Los Angeles: Having sold hundreds of the Remington Sewing-machined for St. which you are now offering with the WESSLY MIRROR at St. [625,50 when freight is paid to Los Angeles], I wish to say that the machine you offer is identically the same as the high-priced arriots, both as to material, workmanship and capacity. Being a resident here and an experienced awwing-machine man, I will take pleasure in fis trusting any one in working the machine, in this place or visinity.

,"is DELIGHTED WITH IR."

Mrs. J. W. Stringfield. Punona: The High arm Mirror Sewing-machine came in good time, in excellent condition, without scratch or blemtsh, and I am delighted with it. We believe the machine is all that you recommend it to be, and think it a rare opportunity for those who may want a nachine to get a free-class one cheap.

"PERFOR IN EVENT DEPROX."

Mrs. E. C. Cranston. Norwal t: The High arm Premium Machine arrived in prime occidion, and is perfect in every respect. Preight 25.00, with first cost added, making 22.50 for as good a machine as is usually sold through agents for \$75. Well pleased. 123.10 when freight is paid to Los Angeles.]

"YERY MUCH PLEASED WITH IT."

Mrs. Martha Allison, Downey: I am very much pleased with my machine as far as I have used it, and feel safe in saying that I have just as good a machine as if I had given \$65 for it. Shall advise any of my frends in try this before buying any other, as I thinkit is fully as good as represented.

The steamships Queen of the Pacific, Santa Ross and City of Puebla excel in their appointments and speed yphary in the in this country; and for countort and concentence, are absed of the transatiantic lines.

Eastern tourists should treat themselves to a run up the coast. The voyage is usually smooth and delightful. A trip to San Luis oblispo and a ride over the Pacific Coast Railway, through the beaut.ful Avila Cañon, the Arroyo Grande and Santa Maria valleys, to Los Olivos (the home of the olive), is most enjoyable.

The Avila and Pismo beaches are very fine, and the celebrated Avila Hot Sulphur Springs are close at hand.

"MIRROR" High-Arm

SEWING MACHINE!

Half Cabinet, Five Drawer, \$60 Machine,

\$25.50 \$25.50

With Copy of the WEEKLY MIRROR One Year.

The manufacturers claim for THS PREMIUM that it has been improved and simplified in all its details by the best mechanical talent in America, who, with unlimited prources at their command, have combined only that which is practicable and dispensed with all compile attended surroundings generally found in other machines, baring the fewest parts, all strong, and with case-hardened bearings. Being free from complication it is easily cared for, never gets out of order, and is always ready for use. The most inexperienced can readily manage it. It has all the moders appliances and conveniences that go to make up the sum of excellences, successfully combining simplicity, durability, speed, strength and beauty, producing a machine unequaled for ease of management and capacity for wide range of work.

THE PREMIUM HIGH-ARM

fs light-running and noiseless, uses A STRAIGHT, SELF-SETTING NEEDLE, and makes the double-thread "Lock Stitch." It is the perfection of mechanism for hemming, felling binding, cording, braiding, seaming, tucking, ruffling, gathering, embroidering, hemsitie by ing, quitting, etc.

It is adapted to every variety of sewing, from the lightest muslins to the heaviest ciotha, and will do a greater range of work than any other machine.

The woodwork is unique and attractive is style and substantially made from well seasoned and carefully selected material. Its elegant finish and rich trimmings are in good taste, and aarmonize with the excellent workmanship of the machine.

Far more handsome and ornaments that the ordinary style of woodwork, it is at the same time of equal durability, utility and good finish.

WARRANTEE—The usual five-year warrantee is given to us by the manufacturers, and we in turn guarantee every machine to give full and entire satisfaction.

NO RISK WHATEVER.

So great is our confidence and knowledge of the superiority of the PREMIUM HIGH-ARM that we further agree with every purchaser to REFUND THE MONEY in case full satisfaction is not given by the machine is every particular after a month's trial. Tailors, Pressmakers. Seamstresses, manufacturers of clothing, shirts, skirts, corsets, umbrellas, etc., will find one of its best recommendations is its special adaptation to their wants and range of work. Subscribed and sworn to before me this 4th day of January, 1889.

The Automatic Tension.

OUR CLAIMS FOR SUPERIORITY

ARE AS FOLLOWS:

A Device whereby the bobbin can be wound without running the machine saves the ne work and attachments while the bobbin is being filled. A Scale for Regulating The length of stitch, which enables the operator to readily ascertain the length of stitch without testing

A Spring-Tension Cylinder Shuttle, large amount of thread. There is but one hole to thread through, making it the most easily threa led shuttle in use. The tension may be changed without removing the shuttle from the machine.

The Double Feed Extends on both sides of the needle and permits a greater variety of werk than any other. It has great power and never fails to perform its duty—will feed the lightest and heaviest goods with equal precision, and will cross seams and hard places without changing lentgh of stitch or missing stitches. Light Running. On account of the simple mechanical devices employed in its conchine, and is almost noiseless. It is the simple state of the simple

Inviting a practical test of this machine, we distinctly claim for it a great superiority in plan, material, workmanship, and in its performance. It is unquestionably the most popular sachine now in the market.

Mr. Kon was doing nicely at dark last evening.

A lively runaway occurred on Spring street yesterday afternoon, About 5 o'clock a little bay br neo attached to a light wagon came tearing down the street, kicking at every jump. Just after passing First street he ran loto a buggy, and a few seconds later twisted one of the wheels off on the railroad track, when he kicked himself loose and continued up the street, being caught near the police station. No one was injured, the entire damage amounting to about \$15.

POLICE WORK.

What Has Been Done Since Mr. Cooney's Election. Clerk Curran last night finished up the

monthly report of the police department for January, showing what has been done for the first 30 days of Chief Cooney's régime. There were 440 arrests made for various offenses during the month, of which the largest number, 92, were for drunks, as usual, with gamblers next in the list having 91 to their credit, or one less than the drunks. Mest of these, however, were Chinese tan playof these, however, were Chinese tan players, and, strange as it may seem, not a single arrest was made for keeping a gambling room, although such places must exist, as the playing was not done in the open air, nor were there any arrests for keeping disorderly houses or houses of prostitution, although it is supposed that there are a number of such in the city. Fifty-six vagrants were gathered in, a gratifying increase, due largely to the shutting off of the denuty constables, while %6 here. crease, due largely to the shutting off of the deputy constables, while 26 begars were caught plying their vocation on the streets, and given accommodations in the City Prison. The young men were accused of having stolen some cigars from a drummer in a saloon on Main street, Wednesday night, while the party were in a convival mood. The drummer turned aside for a few seconds, and when he returned his cigars were missing. The young men then went to the O.K. stable, on Main street, where they were captured by the officer and brought to the police station. Here they were questioned at some length, but when it was learned who the young men were their friends succeeded in having the charges against them withdrawn and the matter squared. The names given were assumed ones. The men claim that they were drunk, and that it was only a joke.

It consulted a great many physicians; none gave me any hope. At last I went to see one who had considerable rejutation in the treatment of lung disease. He gave me a thorough examination, and ead my right lung ough examination, and ead my right lung. ough examination, and said my right lung was badly ulcerated, but if the disease could be kept from extending to the left, which was probable, I could be cured. I took new courage, and commenced treatment I had had many severe hemorrhages from the lungs; was so debilitated that I was a mere skeleno; could not sleep at night for the cough and expectoration of mucus, and during the day I felt that my efforts to g t up the corruption must disgust my nearest friends. and expectoration of muous, and during the day I feit that my efforts to g t up the corruption must disgust my nearest friends. I could not sit up more than, half of the time, and was unable to take any exercise on account of shortness of breath. My appetite was poor, and food would often distress me greatly, and nightsweats were taking what little strength I had left. I am satisfied that Dr. W. N. Davis, 45% North Spring street, saved my life, as I could see that from the first my strength increa ed, my breath became longer, and I gained in flesh so as to astonish even myself. I am in perfect health now, and have scarcely had a day's sickness for over a year. My cough is gone, all the di-tressing symptome have disappeared, even to the hawking and spitting of muous from catarrh in the head. I make this statement for the benefit of those who are troubled as I was, and to perhaps convince them that they are not past hope.

Go and have a talk with the Doctor. He will charge you nothing for an examination, and will tell you frankly if he can cure you. For further information address Warren C. Lindsay, Southwestern House, Mayo street, or postoffice, general delivery.
